DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because although the examiner can decipher to what the reference characters point and the different elements of the apparatus, the drawings are so poor that it takes great effort to understand what the drawings show. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-37 are allowed.
4. The following is an examiner's statement of reasons for allowance: With respect to claims 1, 13 and 26, the prior art does not disclose nor render obvious the claimed combination of subject matter, particularly a bleeder having an exhaust port in fluid communication with said first chamber; said bleeder in fluid communication with said first chamber, said actuator bearing a valve; and said first liquid creating pressure to urge said actuator towards said second position, and to urge said valve to an exhaust position, allowing air within said intermediate chamber to exit said intermediate chamber. The above claim elements are found in all of the independent claims.

Art Unit: 1744

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
6. The patents to Kasper et al., Hampson, Gaubatz, Malott, Weinhold, Kim and Dyer et al. show the current state of the art in valve assemblies.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
